AIRCRAFTS

We provide our students with access to high quality flight training in exceptional flight schools in key location across the globe. We want to ensure the best training that is available.

Diamond DA52

The flight schools we partner with provide top-of-the-line aircraft that are ideal for training situations. Unlike many training programs in India, these aircraft are modern and better equipped for training.

STUDENT LIFE IN FLIGHT SCHOOLS

Training at flight school is challenging but also very rewarding. Each flight school has different schedule but students can usually expect to be flying 2-3 hours. Many students need to study 3-4 hours for every hour of flying. Flight training is like a full time job. As a student pilot, however, your training is complete in 7-10 months instead of 4 years in a traditional university.

Studying overseas can be one of the most rewarding and enriching experiences. At our flight schools across the globe you'll have the opportunity to learn in a new environment as well as understanding of a new culture. Being in a new place can teach you a lot about yourself and give you many opportunities to meet lifelong friends from around the world. Training overseas looks valuable to employers, expands your network, and provides many opportunities for career development and growth. An Aviation career may take you all over the world where you will need to be acquainted with the customers and culture of many different types of people. Training overseas is the best way to start gaining these valuable skills.

Take an opportunity to learn about different parts of the world, see places you have always wanted to visit, and experience a new way of life. Use your spare time to explore, relax, distress and have fun! Many adults wished they would have travelled more in their younger years. This is an opportunity you do not want to miss!

CABIN CREW (HIRING)

The pre-requisites to get started with cabin crew training are very basic. All you need to have in advance is good interpersonal skills, a fine personality and least academic background, which in most of the case is 12th.

Once the basic requirements are met, you can start off with the training program.
